## **Donohue Model**

## **Donohue Model Workflow**

1. An individual can evaluate success in 8 core areas

2. The core areas are the same as the 8 core components

4. These areas define individual success as relative to personal achievement and societal contributions

## 5. Now add:

- Key skills and achievement
- Aspects of military training
- Resources from social services, education, and the community
- The phases of Challenge, which allow for the right environment and enough time to teach the components

## 3. The Core Components are:

Academic Excellence
Responsible Citizenship
Life Coping Skills
Leadership / Followership
Job Skills
Health and Hygiene
Physical Fitness
Service to Community

Welcome to ChalleNGe, where youth come to succeed.
